

## Registration Opens for EDGE26

***The premier credit union technology conference comes to Dallas, Texas in 2026.***

**Tampa, FL – December 11, 2025** – Registration has opened for EDGE26, the premier credit union technology conference. Held in Dallas, Texas on May 12-14, 2026, at [the Fairmont Dallas](#), EDGE26 will feature new keynote speakers, new topics, new breakout sessions and new EDGE Exchange products.

EDGE26 will focus on four key areas:

- Digital Transformation & AI Integration
- Growth & Relevance Across Generations
- Cybersecurity, Compliance & Data Privacy
- Disruption & Opportunity in Financial Services

Each topic will be explored in keynote sessions and, new in 2026, EDGEducation breakout sessions. The EDGEducation sessions will be delivered by technology experts from the industry and will highlight key components of our main topics.

EDGE26 will feature several new and exciting keynote speakers, including Jason Doresey and FC and Dr. Jessica Barker.

Jason Dorsey, President of [The Center for Generational Kinetics](#), has led more than 120 research studies to solve the issue of the generational divide and has uncovered that most business problems are actually generational problems. Jason will present on how generational issues are impacting credit unions on May 14th.

[FC \(FreakyClown\)](#) is a renowned ethical hacker and social engineer and author of the bestselling book, "How I Rob Banks." [Dr. Jessica Barker](#) is an award-winning leader in the human side of cyber security, as well as a best-selling author. Together, they'll present on AI-driven cyber-attacks and how credit unions can protect themselves.

EDGE26 will also feature a variety of activities, including the return of the EDGE Golf Tournament, as well as Yoga and 5k Fun Run / 1 Mile Walk (sponsored by VISA). Participation in activities is complimentary with EDGE26 registration.

EDGE26 will end with one of its famous Final Night Events, this year at [Gilley's Dallas](#). The Final Night Event is a chance for EDGE attendees to network with other attendees in a relaxed environment that includes food, music and a lively atmosphere. Registered guests are welcome to attend the Final Night Event if accompanied by their registered attendee.

"EDGE's impact grows every year and so do our offerings," said Tom Davis, President & CEO of Trellance Cooperative Holdings, Inc. "This year we're excited to offer expanded educational offerings in the form of our EDGEducation sessions. These are going to bring additional value to

our attendees, giving them the skills and knowledge they need to keep moving their credit unions into the future.”

Early registrants can use code EDGE26 for \$500 off registration fees. EDGE is still accepting sponsors at this time; if interested, visit our [sponsor information page](#). EDGE26 will be releasing more information on speakers, events and exciting surprises that are currently developing.

### **About EDGE**

At EDGE, our mission is to bridge the gap between technology and innovation, empowering individuals and organizations to thrive in an ever-evolving digital landscape. We are dedicated to fostering a dynamic platform that brings the latest technology providers directly to credit union attendees, allowing them to see first-hand the industry-changing power of cultivating partnerships with fintechs and technology providers. We believe in iterating – in coming back year after year to share our successes and failures, in promising to return the following year with new technology innovations and applications. Our mission is to be a catalyst for this transformation and iteration by bringing together the brightest minds and fostering an ecosystem of innovation, collaboration and responsible tech use.

### **About the Credit Union Data Exchange (CUDX)**

The Credit Union Data Exchange (CUDX), owned and operated by credit unions through a cooperative model, allows credit unions to share and access a wide pool of data, giving them the ability to make data driven decisions in every area of the business. With a focus on data security and regulatory compliance, CUDX is a safe way for credit unions to collaborate with one another in order to anticipate and react appropriately to challenges affecting the credit union industry.

### **About Filene**

Filene Research Institute strengthens organizations through innovative research and incubation to improve consumer financial well-being. As an independent cooperative finance think tank, Filene’s membership network connects a community of leaders and bright minds to change lives through innovation, truth and cooperation. In addition to delivering cutting-edge, actionable academic research, Filene also provides incubators to test and scale solutions, events to spark organizations into action and advisory services to help accelerate and implement innovation. For more information, visit [filene.org](http://filene.org) and [@fileneresearch](https://twitter.com/fileneresearch).
